Contents of Volume 40

No. 1. JANUARY 1960

Oximetry ..... *Nils J. Nilsson* 1
Hemodynamics of Hypertension ..... *Edward D. Freis* 27
Mononucleotide Acid Anhydrides and Related Compounds as Intermediates in Metabolic Reactions ..... *Jack L. Strominger* 55
Metabolism of Intracellular Water ..... *James R. Robinson* 112
Parenteral Nutrition ..... *Robert P. Geyer* 150

No. 2. APRIL 1960

General Anesthesia and Circulatory Homeostasis ... *Henry L. Price* 187
Assay of Insulin in Blood ..... *J. Vallance-Owen and P. H. Wright* 219
Mechanisms of the Hemodynamic Effects of Endotoxin *Robert P. Gilbert* 245
Interrelationship of Electrolytes, Juxtaglomerular Cells and Hypertension ..... *Louis Tobian* 280
Transport Functions of the Placenta *Dwain D. Hagerman and Claude A. Villee* 313
Biosynthesis of Water-Soluble Vitamins and Derived Coenzymes *Gene M. Brown* 331

No. 3. JULY 1960

Nutrition and Athletic Performance ... *Jean Mayer and Beverly Bullen* 369
Bio-Assay of Thyrotropin in Man ..... *J. M. McKenzie* 398
Proteins Associated With the Thyroid Hormones *Jacob Robbins and J. E. Rall* 415
Role of the Pyloric Antrum in Regulation of Gastric Secretion *E. R. Woodward and L. R. Dragstedt* 490
Glycogen Metabolism ..... *DeWitt Stetten, Jr. and Marjorie R. Stetten* 505
Spinal Reflex Mechanisms Concerned With Skeletal Muscle *C. C. Hunt and E. R. Perl* 538
Pathogenesis of Fever ..... *Elisha Atkins* 580

No. 4. OCTOBER 1960

ACTIVE POLYPEPTIDES DERIVED FROM PLASMA PROTEINS....*G. P. Lewis* 647
NUTRITION-ENDOCRINE INTERRELATIONSHIPS IN THE CONTROL OF FAT TRANSPORT IN MAN.....*Robert E. Olson and John W. Vester* 677
EFFECTS OF MOTOR INNERVATION ON THE CHEMICAL SENSITIVITY OF SKELETAL MUSCLE.....*Stephen Thesleff* 734
PHYSIOLOGIC RECORDING BY MODERN INSTRUMENTS WITH PARTICULAR REFERENCE TO PRESSURE RECORDING.....*Donald L. Fry* 753
INTESTINAL ABSORPTION OF SUGARS.....*Robert K. Crane* 789
EXTRACORPOREAL MAINTENANCE OF CIRCULATION AND RESPIRATION *George H. A. Clowes, Jr.* 826

CORRIGENDA

N. I. BERLIN, T. A. WALDMANN, and S. M. WEISSMAN, "Life Span of Red Blood Cell"
Page 588, line 23, volume 39, should read:

$$G(t) = \int_0^t (he^{-l\beta} + he^{-m\beta})Ce^{-k(t-\beta)}\, d\beta$$

$$= Ch[(e^{-kt} - e^{-lt})/(k - l)] + Ch[(-e^{-kt} + e^{-mt})/k - m)] \qquad (16)$$

Page 594, line 3, volume 39, should read:

$$\frac{N_2}{N_1^2} = \frac{1}{No}\left(1 - \frac{2t_1}{T}\right) \Big/ \left(1 - \frac{t_1}{T}\right)^2 \qquad (28)$$

H. L. PRICE, "General Anesthesia and Circulatory Homeostasis"
Page 207, line 7, volume 40, should read: "A function of the cephalic circulation...."
